

## LED Emergency Battery Pack

## Specification

SKU:	BRI0116
Battery Type:	Nimh
Charging Time:	30hrs on commissioning
Construction Material:	Fire Retardant ABS
EM Module Compliance:	EN61347-1EN61347-2-7EN61347-2-13
Em Output Voltage:	5-42v dc MAX O/C 60v
Emergency Duration:	3 hrs
Power Consumption:	4VA
Power Source:	AC Mains
Product Colour:	White
Product Lifespan:	50000

Protection Class:	1
Supply Voltage:	110V-240V

Universal Compatible with any manufacturers LED Luminaires up to 42v dc, Single battery unit for different wattages (3-80w), Efficient Lightweight (240g), Compact (170mm x 60mm x 35mm), Push-fit connectors for simple installation, Reduced installation time, Competitive Greater value for money than all similar items in the market, British Made in the UK, Social Value Act applies to this product, Patent-pending technology  
*Please note: If you ever need to dispose of batteries, take care as they can contain various hazardous materials that can cause harm to the environment. Recycling Banks are available throughout the country.*
